

Freestanding Acrylic Apron White Bathtub

BPIR Declaration

Version: v1 - 25/08/2024

Designated building product: Class 1

Declaration

NELL INTERNATIONAL MARKETING LIMITED has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product/system

Name	Freestanding Acrylic Apron White Bath Tub
Identifier	Product Codes: BF6522/BF6522S

Description

- Acrylic freestanding bath.
 - White Gloss Acrylic Finish.
 - Dimensions: 1500L x 750W x 700H mm/1700L x 800W x 720H mm
 - Includes pop-up waste in polished chrome. Watermark No. 26021
-

Scope of use

- Suitable for residential applications
 - Suitable for internal installations only
-

Conditions of use

- Any plumbing must be carried out by a registered plumber.
 - It is not suitable for accessibility facilities.
 - The bath should be mounted on a level floor in a waterproof room which has been finished in a material which is suitable for wet areas
 - For safety reasons, the hot water temperature must be limited to 50° C
-

Maintenance Requirements

To avoid soap build-up or water lines in your bath, rinse it with warm water right after each use. Once the bath dries, soap scum and dirty rings become harder to clean. Never use scourers on acrylic surfaces, as they can scratch and dull the finish. To prevent mold, install a fan to remove moisture from the room.

Relevant building code clauses

B2 Durability — B2.3.1

E3 Internal Moisture — E3.2(c) / E3.5 / E3.3.6

F2 Hazardous building materials — F2.3.1

G1 Personal Hygiene — G1.3.2

G12 Water Supplies — G12.3.2

Contributions to compliance

B2: 5-year warranty for defects in materials and workmanship

E3: There are mould-inhibiting qualities in the bath surface which is sanitary grade acrylic. The bath is easy to wipe clean as the surface is impervious, glossy and smooth.

F2: No materials used in the construction of the free-standing bathtub give rise to harmful concentrations at the surface of the material where the material is exposed, or in the atmosphere of any space.

G1: The free-standing bathtub is designed for easy cleaning and is resistant to harboring germs, promoting a hygienic environment.

G12: The free-standing bathtub is constructed using components that will not contaminate the water supply.
